## The Editor's Page

### Letter to the Editor Policy

The Star provides a place *for we the people* to carry on a dialog with the community, as well as with the county and state government officials.

\*The Star wants to address that in the proofing of the first edition, Kristy Frazier was not the sole proofreader and is not responsible for the errors that were found in the publication. Though we reserve the right to edit spelling and punctuation, we also take responsibility to admit when we have erred.

Letters to the Editor must be signed and dated. Please include your address and phone number. All letters are the property of Monroe Publishing LLC and The Star.

WE THE PEOPLE will make better decisions when we are better informed and when we have a safe place to communicate with our community and elected officials.

Send your *Letter to The Editor* to:

The Star  
P.O. Box 3019  
Idyllwild, CA 92549

or contact: 951-527-0055

LETTERS TO THE EDITOR

*A place where you talk and we listen.*

### IMPORTANT ANNOUNCEMENT

THE STAR WILL PUBLISH BI-WEEKLY  
September 2023 through January 2024

Editorial and Advertising Deadlines  
September 18th and October 2nd  
Please contact THE STAR for more info. Call:  
951-527-0055

### WHY THE STAR?

*Why publish a newspaper? Why did this editor/publisher leave retirement, sell her home and move to Idyllwild? Well, here is the answer. I believe that God gives us all assignments. He has always asked someone to give their life for a worthy cause. He seems to be quite interested in providing opportunities for the individuals to whom He gives an assignment.*

*A question asked by a reader: What is The Star all about? What does it represent?*

*Answer: Anyone over the age of 50 may remember their early school days when the teacher rewarded a student with a gold star. Sometimes it would be placed on the forehead or on the work accomplished. The Star logo represents a community acknowledging a job well done. No matter be it an individual or a business many strive to achieve the valued 5 star rating.*

*The Star logo also is designed to represent the impact of a community working together. Whether the community serves as a launching pad for a new business or encourages a collaboration of entrepreneurs, working together builds and strengthens the community. The logo represents the total community and the individuals who make up the community.*

*The Star possesses integrity, values, and a desire to exceed expectations. It welcomes the opportunity to challenge itself and to serve the community it calls home.*

*From my heart and pen,*

*JoAnne Monroe*

### UPDATE: Short Term Rentals - Ordinance 927.2 - 9/9/2023

A quick update on the status of our new 927.2 ordinance draft. 927.2 legalizes and regulates short term rentals (STRs) in Riverside County unincorporated areas. There is a new draft in town, and it includes unique rules for Idyllwild and Temecula Wine Country.

The county created a working group of residents and STR industry reps. We met through the winter to advise on a 927.2 that takes into account the outsized STR issues in our community. We were able to get some minor improvements put into the new draft.

On August 23, after hours of public comment, the county Planning Commission put forward their draft of 927.2. That draft now goes up for discussion with our county Supervisors. Our Supervisors, in the City of Riverside, meet Tuesday, September 12, but we are not seeing 927.2 on the agenda. I am waiting to hear back from the county Planning Director, but we expect the Supervisors to take up 927.2 in a meeting soon.

The Supervisors can strengthen or weaken the draft ordinance, so we encourage resident participation. There are a few local solution groups sending out updates and ways to help. One way to get updates is to join the Petition Group: [t.ly/a7Ffy](https://t.ly/a7Ffy).

## IDYLLWILD SUMMER CONCERTS - A GRAND SUCCESS

photo courtesy of THE STAR Staff  
Director and Drummer

### Interview with Steve Giove

As can happen on any Thursday morning in the summer, the presence of entertainers can be found at several of our local diners. The Star had the surprising opportunity to meet Marine Steve Giove at the Red Kettle. As we each finished our breakfast we briefly chatted about the upcoming evening concert. Even though this concert would not be the finale for the summer, this monumental event is traditionally a favorite.

## From Western to Swing - Jazz to Motown Idyllwild ICC and it's honored sponsors brought an exceptional music experience to town!

The Summer Concert is one of Idyllwild's favorite annual events.

A multitude of Marine Band lovers made their way to the Amphitheater with folding chairs in hand. Idyllwild's loyal concert goers set up their chairs in the early morning of the concert. After all, everyone had received the heads up from ICC's, Stephanie Yost, that the concert would start early and that the band had strict orders to leave immediately after the concert, to make their next destination.

Steve Giove shared that, "I had traveled from Atlanta, Georgia, to play tonight. I'm here on the invitation of Ken Dahleen and the Marine Band."

"The first time I came to Idyllwild was the summer of 2008. That year we came to do the Summer Concert. Ken and I became good friends and kept in touch. Later, I came back to Idyllwild with a Marine Band as the drummer and director of the band called MCJAM. It stands for Marine Corp Jazz Alumni Musicians." Marine Steve Giove is all about Jazz!

During the Concert Giove sat in on several numbers and left the crowd standing during his drum solos. The beat played on as the audience danced.

This trip was a quick turnaround. "After the performance, there would be a drive to Palm Springs Airport to catch a 6 o'clock flight to Dallas, then to Atlanta and then drive an hour to home." Giove laughed about the time required to get home, "It is like traveling to another country, taking 24 hours."

When asked if he will be coming back, Giove answered, "Yes, I would like to make this a yearly thing, every summer. The audience is great, warm and accepting." It was quite the buzz for everyone to arrive early this year, with the band facing a demanding schedule to squeeze in Idyllwild. Word was that the Marine Band would just make it happen. After all, they are Marines and Idyllwild is a special place. The Marine Band didn't want to disappoint the residents, visitors, the vets, or themselves.

Thankfully for Idyllwild residents and guests, the 1st Marine Division Concert Band didn't miss a beat in their scheduling to make it fit.

As the Summer Concert season winds down, the music played on with one Marine Band Director and Drummer who was truly Jazzy!

### The Blue Breeze brought a Motown Review for the GRAND Finale.

When the international band Blue Breeze arrived in Idyllwild, bringing the Summer Concerts to a close, attendees were ready to dance "All night long!"

From Old School Motown to "Uptown" - Prince, the music rocked the Amphitheater and possibly the whole Hill.

Each entertainer took their turn to romance the audience with their individual charm.

Together, Blue Breeze captivated young and old with a rhythm familiar to most, as even the atmosphere seemed to move everyone to rock in their chair or on the dance floor. The audience danced until the very end, and then wanted more, just one more. So, the Blue Breeze gave their final song for an Idyllwild's GRAND finale to the Summer Concerts. Truly a summer to remember all winter long.

## Human Trafficking - What Happens After the Rescue

expressed concern for children who were at home where the living conditions presented an unchecked danger of domestic and child abuse.

With the recent movie Sound of Freedom, and a few other documented films, there is a sensitivity to what is happening to children and young women, as they disappear.

Sound of Freedom gives us a glimpse of how children are being traumatized in such severe life threatening experiences. There are now more individuals stepping into the battle for these children. Those warring against human trafficking also face just

as much danger to escape as the young victims they are rescuing.

Many ask themselves what can they do to help in such a desperate and dangerous situation. At the point of freedom, where do the children go and what happens to the young women, once they are free?

Well, back to the Ladies Room encounter, where I met the woman with the answer to these two troubling questions, Rosi Orozco, Director of Camino A Casa, Mexico City. The following excerpt is from Rosi Orozco's website Unlikely Heroes. (<https://unlikelyheroes.com>) which presents her profile as best anyone could.

Rosi Orozco works to recover and successfully reintegrate into society, victims of human trafficking who have suffered different forms of exploitation including sexual exploitation, forced labor, begging, humiliation, forced marriages and trafficking in organs. Rosi's struggle and main purpose is to free those who are being abused, with specific reference to children. Since 1990 Rosi has been dedicated to promoting and defending Human Rights through several associations, particularly in the prevention and treatment in combating human trafficking, crime prevention, social development and strengthening families.

Over the years Rosi has interviewed over 170 victims herself and helped to empower and enable them to move forward in their lives. She represents the voices of these women to ensure their story is heard by society and the authorities. Many of the women, with their identity protected, had the opportunity and above all, the courage to speak in meetings with authorities, schools, forums, media, etc., both to demand justice and making young people aware, as well as raising social awareness of how seriously this crime affects the lives of its victims.

cont. pg. 10

Well, you just never know who you will meet in the Ladies Room at Cindy Jacobs - Deborah's United Women's Conference in Dallas.

It was just a few years ago when I met Rosi Orozco. At that time there were very few speaking publicly about the issue of human trafficking. In addition, there was very little being spoken about date rape or even domestic abuse. During covid, educators

# A HEALTHIER HAPPIER YOU

## DR. JUDI MILIN - CHIROPRACTOR

Photo courtesy of Dr. Judi Milin

Meet Dr. Judi G. Milin of Mountain Chiropractic in Idyllwild/Fern Valley. For more than 50 years, Dr. Judi Milin has dedicated her life to helping people feel better and be healthy.

Arriving at Dr. Judi's office in Fern Valley, we were invited into a warm and welcoming room. Like a comforting blanket, Dr. Judi provides a place to relax and drop your shoulders, trusting in her knowledge and sincere care for your welfare.

*According to NCCIH, Chiropractic is a licensed health care profession that emphasizes the body's ability to heal itself. Treatment typically involves manual therapy.*

To better understand chiropractic, in this interview, Dr. Judi explained that her role is to evaluate and treat patients neuromusculoskeletal system, which includes nerves, bones, muscles, ligaments, and tendons.

Judi is dedicated to helping achieve an individual's health goals and improve the quality of life!

Dr. Judi shares that, "Anyone who has suffered from back or neck pain or knows how a headache can stop you from getting through the simplest of a daily routine, will wish to find a way to reduce stress by looking to find a chiropractic method for natural recovery."

Dr. Judi offers specific Chiropractic care through Wellness and Lifestyle Education, Applied Kinesiology, Massage Therapy, Activator Instrument Adjusting, and Custom Orthotics/Spinal Pelvic Stabilizers. In addition, she offers Sacro-occipital Technique and provides Emotional Release work.

"At your first visit to Mountain Chiropractic," Dr. Judi states, "I will explain the science behind how chiropractic care works and give you a full evaluation to see if chiropractic care is right for you. If there is a good fit, I will develop a plan of chiropractic care that is specific to your condition and health goals."

Located at 55450 South Circle Drive in Fern Valley, Dr. Judi is just a couple of blocks east of North Circle Drive-within easy driving distance for residents of Idyllwild, Pine Cove, Mountain Center, and the surrounding communities.

For more information contact:  
Dr. Judi G. Milin: 951-659-4522 Text: 951-599-3087 or judidrj@gmail.com

## HAPPY 50th ANNIVERSARY

### Nifty Nifty Chuck and Susan Celebrate 50 years of marriage

This beautiful couple is celebrating 50 years of marriage. Chuck always speaks of Susan as the love of his life. He is a proud husband and a humble servant of the Idyllwild community. Chuck is a long-time Rotarian and always a help in the time of need. Together, they honor each other and share in serving the community with hearts full of love and care for each other and their neighbors.

If you would like to honor or recognize a friend or family member on their special occasion, like their birthday or anniversary, contact The Star - 951-527-0055 Please leave your message.

# Bella Donna and The Opera - Stars of Idyllwild

Tiffany Brannan - Opera Singer - Co-founder

## Lady of the Ring: A Chamber Ballopera

Written by Tiffany Brannan

This Hobbit Day, September 22, journey to the East Kingdom for an enchanting evening of song, story, and dance. Spend the last evening of summer in a beautiful amphitheater at the **Water Conservation Garden** in El Cajon. There, innovative classical production company Cinballera Entertainment is putting on Lady of the Ring, a chamber ballopera based on J.R.R. Tolkien's timeless saga *The Lord of the Rings*.

The story will be told twice, first through song and then through dance. The opera is composed of diverse songs, including a rare song cycle commissioned by Tolkien himself, with words in English and the Elvish language from the books. The ballet includes original choreography to a piano concerto by Dmitri Shostakovich.

The whole show was arranged, staged, and directed by Cinballera's co-founders, sisters Tiffany and Rebekah Brannan. They grew up in Idyllwild and received early singing and dancing training with teachers from Idyllwild Arts Academy.

Tiffany, now age 22, is an opera singer and professional journalist, specializing in film reviews, classical entertainment, and vintage culture. Rebekah, age 19, is a professional ballerina with San Diego Ballet, singing opera, writing fiction, and editing videos in her spare time.

A fellowship of nine performers will bring a concise, artistic take on this story to life. Led by the Brannan sisters, the cast includes talented professional opera singers and ballet dancers who have performed around the world. One of the singers, baritone Stephen Blavet, is an Idyllwild Arts alumnus who had the same first voice teacher as the sisters. The opera will be performed with live piano accompaniment.

Cinballera stands for Cinema, Ballet, and Opera, the three inspirations behind this unique production company.

Lady of the Ring wasn't based on the popular Peter Jackson films, though. It was inspired by the classic novels, which this program encapsulates like a movie from the Golden Era of Hollywood.

The Show will last around an hour and a half. Allow us to transport you to Middle Earth for one enchanted evening!

## Weekly Devotional: Finding Peace

PEACE is an emotion we all hunger for, and yet is so difficult to attain, especially for long periods of time. Join us this week as we seek PEACE in our daily lives, in our decisions, and in our relationships. May you find God's PEACE that surpasses our understanding as you spend time with Him.

May you experience the PEACE that surpasses all understanding in Christ Jesus.

Karen Covell - HPN

## Laughter Is...

Submitted by Jeffery "Sunshine" Cohen

A dog is walking down the street and sees a sign in a shop window: "TYPIST NEEDED."

He walks in and goes up to the boss, pointing to a typewriter. And then he grabs the sign in his mouth.

The store owner asks, "You want the typing job? Can you type?"

The dog sits at the typewriter and starts typing at 90 words a minute.

The store owner says, "That's great, but, oh, I forgot. One of the requirements is the typist needs to be bi-lingual."

The dog looks up and says, "Meow."

## *Gardening Like a Forest Three Saturday Series*

Hi folks,

We are very fortunate to have Peter Kindfield sharing his expertise with us for the next three Saturdays. Peter's knowledge of soil, gardening and stewardship of the land is exceptional. I hope you'll join us for all three Saturdays from 9-10:30 for his highly informative sessions. You'll be glad you did!

The focus for this 3 week series will be on Soil Building to make your garden come alive! Topics that will be covered include:

September 9 - Exploring the Nature of Soil - There's a whole lot going on down there!

September 16 - Composting Basics and Vermiculture - Setting up a worm bin.

September 23 - Compost Tea, top and sheet mulching and polyculture - growing good soil without disturbing it! Peter is a biologist and educator with over 50 years of experience. Peter concentrates on how to work with nature to create a thriving environment.

Donate \$10 for this class or purchase a package of classes at a very good discount at [idyllwildgardenclub.com](http://idyllwildgardenclub.com).

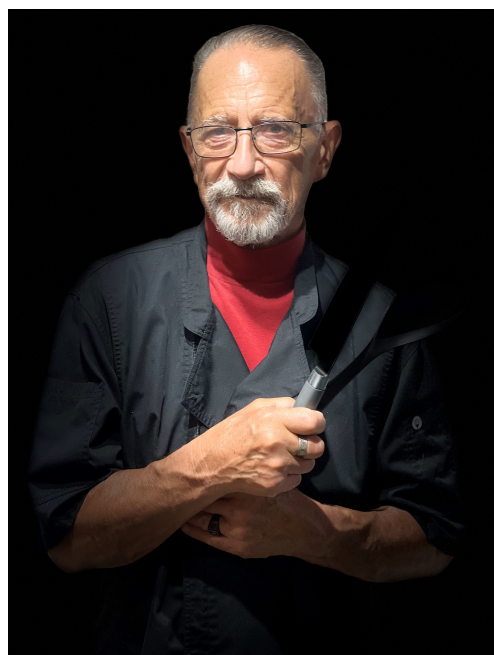

Also, while you are at a class if you'd like to harvest some of our herbs, please bring a bag and you're welcome to cut what you need. We may also have grapes available for picking.

See you at the garden!

Bob

## END OF SUMMER FRUIT COBBLER

### Filling

- 2/3 Cup sugar
  - 1 1/2 Tbs. cornstarch
  - 4 Large pitted Peaches
  - 5 Pitted Black or Red Plums
  - 1 Tbs. butter
  - 1 Cup of fresh Red Raspberries or Blackberries
  - 1 Tbs. Lemon Juice
- Combine in a medium sauce pan - sugar, cornstarch  
Mix well.
- Stir in peaches and plums add butter until well blended  
Bring to a simmer over medium heat  
Cook and stir frequently (about 5 min.)  
Stir in Berries
- Remove from heat and add lemon juice to taste

### Dough

- 1 1/2 Cup all purpose flour
  - 1/2 Cup brown sugar (packed)
  - 1/3 Cup sugar
  - 1/4 tsp. salt
  - 5 1/2 Tbs. Melted unsalted butter
  - 2 Large eggs (beaten)
- Heat oven to 375 F
- Spray 2 quart casserole with Non-stick cooking spray  
In medium bowl stir together flour, sugars, baking powder, and salt,  
Stir in butter until blended, add eggs, mix until blended. Spread fruit  
mixture into the greased casserole dish.
- Sprinkle clumps of dough mixture over the fruit.  
Set casserole on cookie sheet and bake on center rack  
Bake 30 to 40 minutes until brown and bubbly.  
Transfer to wire rack to cool serve with ice cream or whipped cream  
You can use other fruits of your choice

**Try this recipe or text me  
and I will make this for you!**

### Sarah J. Makowski: On Language and Writing

(by Women Writers Women Books)

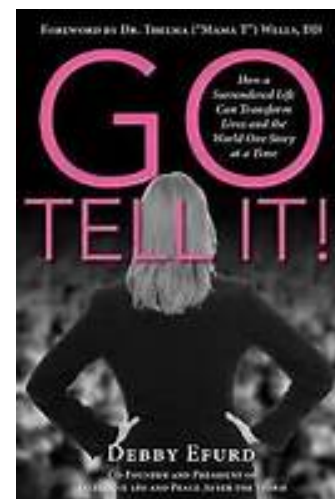

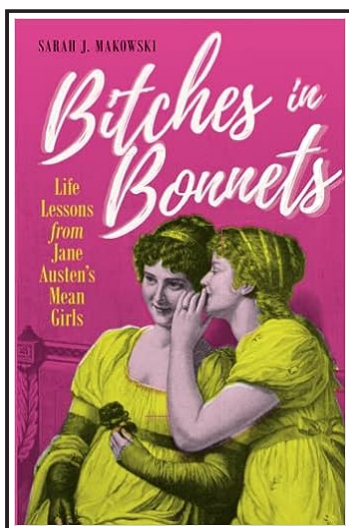

Dr. Sarah J. Makowski is a learning and development expert by day and a Jane Austen scholar by night. Her work appears regularly in Austen-related publications, and she speaks at Austen conferences in the United States and abroad. Originally from Michigan, Makowski lives in Germany with her teenage son, husband, two cats, and three chickens. (Amazon)

Sarah writes: *Bitches and Bonnets* explores parallels between Austen's world and our own, showing how modern social and behavioral scientists are just beginning to document and quantify what the author knows instinctively. Interweaving modern research and sociological experiments, author and Austen scholar Sarah Makowski looks beyond Austen's texts for the sources of female aggression both during the Regency and today. Despite incredible advances in gender equality, women still face discrimination and bullying from creche to career. The cruelest assaults are those that are least expected-from other women. Hardly a woman alive has not experienced a false friend whose opinions and affection bring both positive and destructive consequences. The very ordinariness of Austen's stories leaves room for us to identify with her flawed heroines and make peace with their enemies.

# HOLLYWOOD NEWS

## Hollywood Therapists See Mental Health Effects of Dual Strikes

Depression, anxiety and feelings of "powerlessness" and "loss of identity" are taking hold during the entertainment industry's ongoing work stoppage. Hadley Meares (August 21, 2023)

According to mental health professionals, there are ways to cope and even thrive during the strikes. "The way to survive as a creative person in a capitalist marketplace is to have a really good and positive relationship with your own skill set," (Palumbo says. " The love should be between you and your creative endeavors, you and your skill set. That's where the love should be."

While on strike, screen writer and showrunner Monica Owusu-Breen has attempted to reconnect with what drew her to storytelling in the first place, before the business of Hollywood took over. "I've been trying to find my joy of writing again," she says. "I'm writing things that maybe I can sell, maybe I can't. I remember that I got into this career because I love it, and writing is something I can still do."

Contributed by Karen Covell with an excerpt from The Hollywood Reporter

If you know someone who is effected by this strike, you might offer some help and a hug.

### Rosi Orozco and Trafficking - from pg 4

Previously, Rosi acted as Federal Deputy and President of the Special Commission for the Fight Against Human Trafficking in the LXI Legislature of the House of Representatives. For the first time in Mexico there was a Commission for Human Trafficking in Persons and to Protect and Assist the Victims of these crimes. This initiative subsequently became law in Mexico.

Rosi has appeared in international media such as CNN and Newsweek, The Herald Magazine, The Washington Post, The Universal, Excelsior, etc. Rosi has received awards from various institutions and media. Newsweek Magazine recognized Rosi as one of the four most courageous women in Mexico.

Check out Unlikely Heroes at [unlikelyheroes.com](http://unlikelyheroes.com) to

discover more specifically what Rosi is doing currently to help women after their rescue from being trafficked.

What can you do? Be aware, be educated, and be willing to share with those who are within your circle of family and friends how close trafficking can come to our loved ones.

Follow Rosi Orozco: <https://unlikelyheroes.com>

Come ready for fun! Put on your detective hat and explore Idyllwild. This is the perfect mixture of mystery, adventure, and history of Idyllwild.

Guided by the game, you will make your way around Idyllwild. At each stop there's a puzzle. Solve to puzzle and receive a clue. Collect the clues and solve the mystery.

This is great fun for exploring Idyllwild with your friends and family.

The mystery tour takes approximately two hours as you learn the history of Idyllwild, solve the mystery, and finish your adventure with a delightful meal at a local restaurant.

Save your score with a screenshot and receive a 10% discount on your lunch or dinner.

Recommended for adults and school age children. [www.MysteryThrillSeekers.com](http://www.MysteryThrillSeekers.com)

# A HEALTHY YOU

## CROSETTO UPDATE September 1, 2023

*Dario Crosetto took time last week to write to The Star to bring more clarity to his 3D-Flow invention and his humanitarian efforts to bring the world hope in winning the fight against cancer. Very few individuals in this world are not effected by cancer. His loss of friends and family keep the drive in him ever moving to carry the facts to the world. Dario has faced physical and financial challenges to continue to tell the world there is an early detection source to save lives in the fight against cancer.*

*The purpose of this letter is to bring attention to a groundbreaking invention having the potential to significantly reduce premature cancer deaths and health complications.*

Dear Reader;  
In the interest of promoting scientific truth and advancing human well-being, I respectfully request you urgently send the 17 points highlighted in this document to experts you know in this field. The invention is the Three-Dimensional Complete Body Screening (3D-CBS) device, invented in 2000 and described in detail in the book (goo.gl/ggGGwF). It consists of a CT(Computed Tomography) and a PET (Positron Emission Technology) with a long detector, measuring minimum abnormal bio-physiology, in a 2 minute, \$200 test at very low radiation, capable of detecting tumors having only 100 cancer cells in all organs of the body well before they grow to over 1,000,000 cancer cells, which CT scans, mammograms, and MRIs can detect. This technology, if implemented as described in the book, could save over 13,000 lives daily.

In 2020-21 experiments revealed, and scientists admitted, errors in developing PET scans taking beautiful pictures and suppressing the 3D-CBS measuring bio-physiology causing setbacks in advancing science, resulting in the unnecessary loss of lives and money. However, dominating scientists handling \$2 trillion per year in research and development did not fund the inventor of the 3D-CBS to prove his claims on a sample population. All individuals proposing solutions to reduce cancer deaths and costs should be invited to present their respective projects in a standardized table format, estimating the lives and costs saved every year for the next 30 years, similar to the one at (<https://bit.ly/3ova8Tz>). A public scientific review, akin to the one conducted for the 3D-Flow invention at Fermilab ([goo.gl/zP76Tc](http://goo.gl/zP76Tc)) should then be organized to compare all projects, including the 3D-CBS based on their respective claims and potential impact on reducing premature cancer deaths and costs. In the absence of an alternative proposal submitting a table supported by calculations showing superiority to the 3D-CBS in saving lives and costs, and in the absence of calculations and logical reasoning that would invalidate my invention-calculations-claims-estimates, as has been the case for 23 years, funding should be provided to the inventor to build two 3D-CBS devices to prove the claims experimentally on a sample population. Since the 3D-CBS was invented in 2000, more than 5,000 Italian DOD employees, 1.5 million Italians, and 40 million people worldwide have needlessly died. More than \$30 trillion has been spent on R&D; yet the 3D-CBS has been ignored, and the \$0.00002 trillion (\$20 million) has not been provided to the inventor.

Dario writes, ***Silencing my work on the 3D-CBS invention for over two decades-a potential tool for halving premature cancer deaths and associated costs- resulted in a catastrophic loss of over 40 million lives and more than \$10 trillion. If adequate attention paired with scientific problem-solving is given by decision-makers and experts, we can recover lost time and eliminate these barriers, thereby enabling the benefits of innovation to reach patients.***

# Last Minute News!

## Riverside County Mobilizes Quickly to Address Eastern Coachella Valley Flash Flood Impacts

MECCA – Riverside County today proclaimed a local emergency to respond to the impacts of the flash floods in the eastern Coachella Valley from Friday, September 1 that damaged and washed out local roads and the Oasis Community Park, and created potentially severe health risks to the community with the breach of the Lawson Dump.

The local emergency proclamation calls attention to the significant degree of damage and public health concern in the eastern Coachella Valley from the flash flood that dropped close to two and three inches of rain on communities within a short span of time Friday.

The following is an overview of actions that have been taken, efforts that are under way and collaboration between Riverside County and partner agencies to address the impacts of this local emergency.

The Riverside County Emergency Management Department began monitoring the storm as soon as it was alerted to it by the National Weather Service. Riverside County Fire personnel were in the communities on Friday assisting residents. On Saturday morning (September 2), Emergency Management Department staff deployed to the eastern Coachella Valley communities to conduct assessments of damage.

### Lawson Dump

In coordination with CAL FIRE/Riverside County Fire Department, Emergency Management Department crews found that the flooding caused the breach of a dirt and rock retaining wall and berm along the Lawson Dump on Torres-Martinez Tribal land near Thermal, along Pierce Street and Avenue 69.

Three surrounding mobile home parks are flooded with water and unknown materials, with the potential of severe toxic exposure to the residents. These mobile home parks, San Jose Mobile Home Park, Vargas Mobile Home Park and Gamez Mobile Home Park, have been under an evacuation warning since Saturday, September 2

- Within a few hours Saturday, the Emergency Management Department and the Riverside County Department of Public Social Services coordinated with the Galilee Center to open an evacuation center at the Galilee Center in Mecca. Evacuated residents will have a safe place to stay, meals and services
- The Riverside County Department of Environmental Health is conducting initial testing in the field and will coordinate to expedite results from the contracted laboratory. The goal is to receive results 48 hours after submittal. The department will contact the U.S. Environmental Protection Agency to request its response and involvement, and seek further guidance for a complete list of potential contaminants for testing.

The Riverside University Health System – Public Health and the Riverside County Housing and Workforce Solutions Department deployed a team this morning to assess the community for health impacts. The Emergency Management Department has been assisting resources onsite with bilingual staff and coordinating requests to state and federal partners.

The Riverside County Transportation Department, the Riverside County Flood Control & Water Conservation District and the Emergency Management Department are meeting in the field with a contractor today to assess restoration plans.

Several roadways and exit ramps were damaged or completely washed away. The County Transportation Department has posted a list of road closures for county roads affected by flooding in the eastern Coachella Valley. These closures are:  
 Hammond Road in Mecca, from Grant Street to Avenue 68  
 72nd Avenue in North Shore, westerly to Sea View Drive  
 Fillmore Street in Thermal, from Avenue 52 to Avenue 54  
 Pierce Street in Oasis, from Avenue 66 to Harrison Street  
 Harrison Street in Oasis, from Avenue 70 to Avenue 81

Johnson Street in Oasis, from Avenue 81 to Avenue 82  
 Van Buren Street in Vista Santa Rosa, from Avenue 66 to Avenue 62  
 Avenue 66 in Vista Santa Rosa, from Jackson Street to Van Buren Street  
 The Coachella Valley Water District over the weekend worked on Avenue 76 and Pierce Street in the community of Oasis to re-establish access to the mobile home park, where the crossing had been washed out. This has assisted the county, allowing the county transportation department to spread its resources to address other flooding areas.

The flash floods on Friday came and went quickly but caused significant damage in the eastern Coachella Valley, a lot more so than from Hurricane Hilary,” said Supervisor Perez. “The efforts of our county team and community partners have all to assist the residents who are having to deal with damage in their communities from this storm. There are many areas that were affected and that’s why we quickly proclaimed a local emergency to seek any eligible potential federal and state assistance to support our repair and recovery efforts.”TODEC Legal Center has assisted with outreach efforts to the impacted community Pine Cove and Wine Country, and they now have draft language of proposed changes to the Short-Term Rental Ordinance for the community's review and comment.

Contact Fourth District Supervisor V. Perez at Palm Desert Office for more information: 760-863-8211.

ARF has two kittens, six months old, and four young kittens, about 9 weeks old. These precious babies are looking for a forever homes. If you are interested, stop by on the weekends or call to make an appointment. Call: 951-659-1122  
 Our kittens have lost their mittens and need to find a loving home.
